EXCELLENCE IN BUILDING | SOUTHEAST MICHIGAN

DISTINCTIVE HOMES, TIMELESS DESIGN

For the Petrucci Homes team, it's a process built on trust and pride.

Mike Petrucci has a passion for doing the right thing—for his homeowners and the projects they entrust him with, which commonly include custom home design, construction services, room renovations, handmade custom cabinetry, and the creation of unique outdoor living spaces.

"At the end of the day, I want my clients to feel good about the work my firm has done for them. I want them to feel that their home meets their needs both in form and function and possesses the character and the modern amenities that make day-to-day living easy and comfortable," says Mike Petrucci of Petrucci Homes, based in Bloomfield Township and serving Bloomfield Hills, Birmingham, and other metro Detroit communities.

Petrucci accomplishes his goals by approaching each design, build, and renovation as if it involves his own home. And many times, he stresses, a collaborative approach—one that includes the ideas and feedback of such professionals as architects, interior architects, and designers with a flair for space planning—delivers the best results.

"I've spent 26 years building beautiful homes. But during that time, I've also focused on building relationships—with clients who find peace of mind in being consulted, informed, and respected, of course, but also with professional and trade partners who care as much as I do about interpreting and transforming a client's vision into a reality that both pleases and serves," Petrucci explains.

"At Petrucci Homes, we stand behind our work," he says. "It's a process built on trust and pride—trust that we will deliver a quality end product and pride in how you and others react to your new home."
